

XLH™ Hybrid Electric Upfit

Ford F-250 upfit solution provides a 25% increase in miles driven per-gallon*

XL, the leader in connected fleet electrification solutions, now gives commercial and municipal fleets a simple solution for lowering operating costs and meeting sustainability goals. Now fleets can enjoy up to a 25% increase in miles per gallon on pickups used for rugged towing, hauling capacity, and utility applications.

Fleet-Ready™

The OEM powertrain and warranty remain intact. Our hybrid component warranty is 3-years or 75,000 miles.

Big Savings

Our XLH hybrid system delivers a 25% increase in miles per gallon*, so drivers can go longer between fill-ups, plus a reduction CO2 emissions.

Superior Driveability

XL vehicles drive just like the other unit in your fleet – no driver training needed. With tens of millions of fleet miles, our vehicles have a proven track record of 99.9+ % vehicle up-time.

Pickup Trucks

- > Ford F-250 Pickup (6.2L engine)
- > 4x2, 4x4 drivelines
- > All wheelbase, cab, and bed size configurations
- > Better fuel efficiency from Ford's class-leading 3/4 ton pickup
- > Same Ford rating for towing and cargo capacity

Installation complete in just hours as a ship-thru upfit.

XL is the first Ford Electrification Qualified Vehicle Modifier (eQVM)

*Actual MPG may vary.

XLH™ Hybrid Electric Drive System

Our hybrid electric technology is charge sustaining. The hybrid system saves fuel through regenerative braking, a process by which the electric motor helps slow the vehicle during braking to charge the hybrid battery. Then as the driver accelerates, the hybrid battery releases the stored energy to the electric motor, helping to propel the vehicle.

XLH™ Hybrid System	Specifications
MPG Improvement*	25%
System Voltage	259V
Lithium Ion Battery	1.8 kWh
System Weight	350 lbs
Electronic Speed Governor	Up to 75 MPH
System Torque (Peak)	220 lb-ft (Added at Driveline)
Component Warranty	3-Year / 75,000 Miles

Intelligent Decisions

Our proprietary, cloud-based, vehicle connectivity platform provides actionable intelligence, including speed, idling, vehicle drive cycle, and CO2 emissions reduction.

Available on the Ford F-250 pickup. (4x2 and 4x4 drivelines)

*Actual MPG may vary.
